<td>CareConnections is an Outcome Optimization System for rehabilitation services. It is used by practitioners, therapy provider networks, health plans, employers, and benefit management companies to optimize the value of each patient’s episode of care using outcome data and clinical practice guidelines as part of a platform of automated care management. Our focus is on providing knowledge resources at the point of care, and not merely numbers to clinicians and payers. <a href="mailto:jgunn@taiweb.com">jgunn@taiweb.com</a></td>
