VENDOR COMMENTS

Vendors

Clinicient
www.clinicient.com

Insight is a single-system EMR/billing platform designed to help outpatient therapy practices optimize their clinical and financial operations. It does this through a combination of cloud-based EMR, practice management, billing, and revenue cycle management solutions. By combining process automation technologies and data-driven coaching, Clinicient helps practices improve efficiency, increase revenue, and minimize time-to-collect. For more information call 877.252.4774 or visit clinicient.com.

HENO
www.heno.io

We also offer support and full-service with custom creation of documentation templates to suit niche practices. HENO support is what sets us apart; we know clinic owners' time is extremely valuable and your practice management tool should be seamless. HENO was built by a PT and multi-clinic private practice owner in Florida on Oracle enterprise software. Our data is backed up in real time and can be scaled to rapidly upgrade and add components to the system based on clinic and user requests.

Mediware
www.mediware.com

"MediLinks helps the busy practice manager synchronize the critical elements of their practice: better patient experiences, tighter payer compliance, and a more profitable practice. Whether you provide multidisciplinary therapy, or simply focus on PT, MediLinks has specialty tools and flexible templates to increase your therapists' satisfaction. MediLinks also supports specialty programs such as pediatrics with dedicated content and workflow."

MWTherapy
www.mwtherapy.com

Ready to try something new? MWTherapy gives you the best of all worlds—clean and customizable documentation with built-in compliance tools, convenient scheduling with text reminders, and built-in billing with tools and automation to make billing faster and more accurate. For more than a decade, we've been on the cutting edge of physical therapy EMR software. With millions of notes written and millions of dollars billed, we're a system you can rely on. A free demo is only a call away—800-627-1261.

VENDOR COMMENTS

ReDoc, a Net Health product — Net Health 360 Professional Services and Net Health Billing Services complement ReDoc's fully integrated EMR solution. Professional Services offerings utilize metrics and documentation within ReDoc to refine your workflow, re-route your operational road map, and define strategies for optimal through-put and outcomes. Our Billing Services completely lift this burden from your back office to ensure financial performance captures all documented care, mitigates rejection, and drives compliance.

Systems 4PT — Undisputed fastest EMR in Outpatient Rehab. Evals in less than 10 minutes, daily notes in less than 2 minutes. One integrated database provides: scheduling, EMR, billing, collections, outcomes and management reporting. Payer rules integrated into the system ensure clean claims. Our clinics average 9% higher reimbursement vs. their prior approach to billing. Integrated patient portal. Secure Login. Generally your practice will see a 30% reduction in costs compared to your current EMR.

TheraOffice — TheraOffice is the only EMR and practice management software designed by physical therapists to be the most adaptable to your unique business.

Turbo PT — It's simple—Turbo PT makes EMRs, well, simple. Increase productivity and profitability! Drive better evidence-based patient outcomes. Get all the tools you need to deliver better patient care and communication with patient portal. Our compliant EMR software integrates seamlessly with our practice management system for the ultimate all-in-one clinical, administrative, and financial solution for physical therapy.

WebPT — WebPT believes in empowering the rehab therapy community to achieve greatness in practice. That's why we created an innovative, end-to-end business solution designed specifically for rehab therapy professionals. WebPT gives every rehab therapy business—from single-therapist clinics to multi-location enterprises—the tools necessary to maximize performance, revenue, and patient outcomes.
