Serola Biomechanics designs and manufactures innovative high-quality orthopedic braces and supports including the top selling Serola Sacroiliac Belt and Gel Arc Elbow Brace. Its products are sold in more than 40 countries and are recommended by the top health clinics worldwide.

Casamba Revenue, powered by IKS, helps post-acute therapy providers maintain an accurate and consistent revenue cycle. From front-office to performance management, our experienced billing professionals partner with you to handle financial operations, make informed decisions and scale efficiently, while helping generate, capture, collect, and protect revenue in preparation for growth.

Clinicient delivers patient-centric, measurable, outcomes-driven software and best practice services. Our #1 recommended INSIGHT solution brings together EMR, practice management, billing and analytics in a single system and combines this with expert services enabling practices to thrive in the clinical and financial aspects of their business and improve patient’s lives.

MWTherapy gives you the best of all worlds—clean and customizable documentation with built-in compliance tools, convenient auditing with text-reminders, and built-in billing with tools to make billing faster and more accurate. 10+ years in business, millions of notes, and millions of $ billed/collected.

OptimisPT Billing delivers full scale medical billing to capture your revenue so you can focus on your patients. Our skilled team is dedicated to maximizing your reimbursement, through submitting fast and precise claims, and streamlined collection methods for desired financial results.

SmartCells Training and Therapy
SmartCells Physical Therapy Mat
Scott Jarold
1769 Bishop Road
Chehalis, WA 98532
Phone: 360-342-0871
Email: sjarold@smartcellsusa.com
Website: www.smartcellsusa.com
Facebook: www.facebook.com/SmartcellsUsa/
Twitter: www. twitter.com/SmartCells_USA
LinkedIn: www.linkedin.com/company/smartcells-cushioning-technology/
YouTube: https://youtu.be/uOIVxszJQXYw

SmartCells is a patented cushioning technology which provides a safe, stable surface for patients. The unique cell structure compresses to unload up to 80% of the impact forces and then immediately provides a dynamic response to return energy. SmartCells Cushioning Technology is available in therapy mats, flooring, and insoles.
